www.innov8development.co.uk

innov8 Masterclass Series

½ day high impact, concise and relevant practical sessions, focusing on a particular theme that can fit into your organisation's busy schedules. Each highly participative and thought provoking session features a "toolbox" of skills and techniques that enable learning to be transferred effectively into workplace performance.

innov8 Masterclasses can be stand alone or you can combined two or more topics to create a custom made development programme to directly support your organisation's priorities.

Approach

Working in pairs and small groups, participants have the opportunity to work through real issues and to practice and plan strategies to use in the workplace.

innov8 Masterclasses can also be designed to deliver HR Policy briefings to staff for example: Diversity & Equal Opportunities; Health & Safety; Recruitment & Selection; Performance Management/Appraisal. Your Organisation's own policies, procedures & documentation will be used in these briefings.

Contact us mail@innov8development.co.uk for a free initial consultation discussion.

Dignity at work masterclass

Overview

Diversity is about difference. Essentially, a valuing diversity approach focuses on the positive aspects of the differences between people. It recognises that the different backgrounds, values, attitudes, skills and experiences that people have means that they bring a unique perspective to work issues. Participants will discover that rather than being a legal nightmare, meeting Equality and Diversity requirements is an exciting challenge and a welcome tool for enhancing personal and business relationships.

Learning outcomes

The aim of the course is to raise awareness, explore how Equality and Diversity impacts the workplace and empower you to understand and promote a culture of Equality. This training is non-threatening, interactive and lively and is suitable for all backgrounds.

More specifically this session will cover:

- What Makes Me Different?
- The Differences the Law Protects
- Stereotypes and Assumptions
- Prejudice and Discrimination
- Allport's Scale
- Workplace Audit
- Review and Action Planning

Coaching skills masterclass

Overview

Coaching is a non directive form of development. It focuses on improving performance and developing individuals' skills. This session provides an introduction to coaching techniques that will help establish a coaching culture in the workplace.

Learning outcomes

This workshop is designed to enable you to:

- Structure the coaching session
- Use the GROW model for coaching for outcomes
- Give feedback in a way that is accepted and leads to improved performance
- Have practiced your coaching skills in a supportive environment

Customer care masterclass

Overview

Acquiring new customers costs five times more than satisfying and keeping your existing customers. A satisfied customer is likely to tell up to 3 other people about their positive experience with your organisation. A dissatisfied customer is likely to tell upwards of 11 others of their negative experience with your organisation. This course is aimed at anyone who either directly comes into contact with customers, both face-to-face and on the phone, or who manages people who do.

Learning outcomes

This workshop is designed to enable you to:

- Project a professional image
- Use body language to your advantage
- Identify customer motivation
- Exceed customer expectations
- Improve customer service skill
- Be aware of why customers leave and know how to ensure that they return
- Resolve conflicts and complaints
- Turn dissatisfaction into satisfaction
- Create long term customer loyalty

Time management masterclass

Overview

Anyone who would like to learn how to manage their time more effectively, and help relieve the pressures that can lead to stress will find this workshop useful.

This practical session will equip participants with tools and techniques to use in the workplace.

Learning outcomes

More specifically participants will be able to:

- Recognise the principals of effective time management and apply them to their own work environment
- Be aware of how reaction to time management pressures can lead to stress
- Have undertaken individual diagnosis about their approach to time management and made commitments to action to improve their ability to increase their personal effectiveness

Structuring reports masterclass

Overview

Increasingly within any organisation people at all levels need to be able to communicate their ideas clearly and professionally to others in writing. Without such skills not only personal but also organisational image and success can be impeded.

This workshop concentrates upon enhancing the ability to write well-structured and concise reports to the benefit of both the individual and the organisation.

Learning outcomes

More specifically the session will include:

- The importance of understanding your audience
- Being clear about your objectives
- Planning your document
- Rules for structure and importance of good layout
- Editing and proof-reading your own work
- Raising your own writing queries

- Creating contacts
- Sending email/appointments to contacts

Delegation skills masterclass

Overview

Delegation is an important feature of many workplace relationships and the need for effective delegation is on the increase: now more than ever there is greater pressure for teams to achieve more, better and faster. Despite understanding the value of delegation, many people say that they wish they could delegate more, but that they just don't trust that the job will be done to the required standard. However, despite potential pitfalls, many of these concerns can be alleviated through the effective use of a delegation process, through developing awareness of two-way responsibilities and through specific skills development.

Learning outcomes

More specifically the session will include:

-  The benefits of delegating
-  A detailed structure on how to delegate effectively
-  Focusing on objectives rather than tasks
-  Using delegation as a motivational tool
-  Dealing with different ability & confidence levels
-  Coaching, feedback and developing people through delegation
-  Responsibility levels
-  Managing empowerment

Facilitation skills masterclass

Overview

Facilitation can play an important role in ensuring a well-run meeting or engagement process and can engage people effectively to come up with decisions and/or creative new solutions that they will own and implement together.

Learning outcomes

In particular this workshop will introduce you to:

- The principles of facilitation
- The key skills and tasks of the facilitator
- Starting off - ice-breakers/warm-ups
- Effective facilitation tools to use in a variety of situations
- Encouraging decisions
- Managing behaviours

Decision making masterclass

Overview

We make decisions every day, many of which will have considerable impact on our work and on other people. This course introduces you to a range of tools and techniques that enable you to make considered and reasoned decisions, either individually or as part of a group.

Learning outcomes

More specifically the session will include:

- Stakeholder analysis
- Comparing and contrasting options
- Weighting assessment
- Analysing pros and cons
- Cost/benefit analysis

Difficult conversations masterclass

Overview

Problems aren't generally easy to talk about - that's part of the problem! It may be that the most important skill for people in organisations is the ability to work through difficult conversations to come to agreement and understanding. This course will help you to turn those difficult conversations into constructive discussions and help you to improve how you communicate and listen to others.

Learning outcomes

More specifically the session will include:

- What makes some conversations difficult
- Key processes and behaviours
- Emotional intelligence
- Reflecting upon your own difficult conversations and considering how to handle them more effectively

Effective meetings masterclass

Overview

Effective meetings provide swift and productive communication between people, and can be a successful decision making forum enhancing commitment and motivation.

Learning outcomes

More specifically the session will include:

- Planning, setting meeting objectives and preparing agendas
- Selecting and using facilitation tools

- Hints and tips
- Evaluating the outcome

Communications skills masterclass

Overview

Effective communication skills are key in both personal and professional lives; and essential to achieving both individual and business goals. Frequently, inappropriate communication causes relationship difficulties that gets in the way of individuals, teams and organisations realising their potential.

Learning outcomes

More specifically the session will include:

- Selecting and using appropriate tone, processes and media
- Developing active listening skills
- Written communication in the workplace
- Tools and techniques

Managing sick absence masterclass

Overview

This workshop is designed to enable line managers to take responsibility and ownership for this key management issue and to manage sick absence with confidence.

Learning outcomes

More specifically the session will include:

- Appreciate the benefits of managing sick absence effectively
- Identify the line manager's role and responsibilities in managing and reducing sick absence
- Recognise legal and statutory requirements that underpin best practice
- Have confidence applying organisational sick absence policies and procedures
- Effectively record, monitor and review sick absence in their teams, recognising trends and trigger points
- Recognise the importance of maintaining contact
- Confidently prepare for, structure, carry out and document return to work interviews
- Recognise the need to consider flexible return to work options; occupational health referrals; capability procedures

****The organisation's own policies and procedures will be referred to during the session.

Working effectively within professional boundaries masterclass

Overview

Anyone who works with people should be aware of professional boundaries. This course will focus on the importance of setting and keeping boundaries in working relationships with clients, colleagues, visitors, other professionals and stakeholders. It will explore good practice case studies, organisational policies and procedures and delegates will share ideas about working safely, effectively and professionally within these boundaries.

Learning outcomes

More specifically the session will include:

- Defining professionalism
- What are professional behaviours
- Differences between our personal and professional lives/relationships
- Cultures and values
- Testing and discussing boundaries
- Codes of conduct, policies and procedure

****The organisation's own policies and procedures will be referred to during the session.

Personal effectiveness masterclass

Overview

The pressures of the modern world present a constant challenge, quicker communication, competing priorities and the impact of technology have all added to the intensity of modern working life. We are continually being asked to achieve higher levels of performance under increasing time pressures. Better time management, improved utilisation of tools and technology, planning, review and team work allows us to cope better with the daily demands of our work and can enable us to be in control of what we do, stop feeling overwhelmed, be more effective and retain quality time for life outside work.

Learning outcomes

More specifically the session will include:

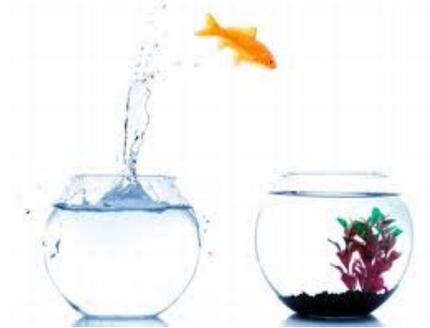

- How you use your time at present****, and how you would like that to change
- Time Stealers - Tools and strategies to deal with interruptions; obstructions; low value activities
- Technology – Help or Hindrance?
- Assertiveness—Saying YES, without being taken advantage of; saying NO, without feeling guilty or causing offence
- Asking for help—when; how; who; what

**** Participants will be asked to complete a time log prior to the workshop (Time logs remain confidential and recorded data is not required to be disclosed.)

Working effectively in changing and uncertain environments masterclass

Overview

Change and uncertainty are becoming familiar aspects of working life. Change does not have to be negative, the opportunities it can present may indeed be far more beneficial than first thought. It is important to understand the change, what impact it has on you personally, your team and the organisation and how you can get the most out of the situation.

Learning outcomes

More specifically the session will include:

- The change process
- How people react to change and uncertainty
- Dealing with change
- Keeping work positive when moving through change
- Planning future action

Managing performance masterclass

Overview

Performance management is perhaps one of the biggest concerns of managers - it is a key responsibility for anyone who has a line management role, and, along with motivating and dealing with staff development, is an integral part of that role.

Learning outcomes

More specifically the session will include:

- The role & responsibilities of an effective manager
- Clarifying responsibilities and standards of performance
- Recognising factors that effect performance
- Motivating and delivering results through others
- Managing poor performance
- Developing and retaining talented people

Training skills for topic specialists masterclass

Overview

Increasingly managers and topic specialists are asked to impart their skills and knowledge to colleagues and stakeholders. This may be assisting with Inductions; disseminating new policies, procedures or information; sharing Best Practice or helping colleagues develop new skills and knowledge in your specialist area. This course has been designed to equip the Topic Specialist with a “Toolbox” of practical training concepts and methods that will enable you to confidently design and deliver effective learning sessions.

Learning outcomes

More specifically the session will include:

- 1 How People Learn—Learning Styles
- 2 Motivation and Barriers
- 3 Establishing Aims and Objectives and Planning the Session
- 4 Training Techniques—Delivery and Facilitation Skills
- 5 Assessing the Learning and Evaluating the Session
- 6 Hints and Tips

Practical team building masterclass

Overview

Today almost everyone works as part of a team. Picture your team working seamlessly as a whole, work gets done effectively and everyone contributes their unique talents to achieving the team's and organisation's goals. Achieving effective team working can be a challenge, this session is designed to provide you with strategies and toolkit to enable you to plan and build a high performance team.

Learning outcomes

More specifically the session will include:

- 1 Defining and communicating the team's purpose and goals
- 2 Clarifying and communicating your expectations and how the team contribute to the organisation's goals
- 3 Team dynamics
- 4 Building trust and cohesiveness within the team
- 5 Planning future action
- 6 Hints and Tips

Positive career transitions masterclass

Overview

Career change and transition can be a great opportunity to move your career forward in line with your own personal agenda. Although it can be traumatic at the time, many people find that in the long run change is actually the catalyst they need to take their career in the direction they actually want to go. So use this time to think about what you really want, and go for it. This session is especially useful for anyone making internal job applications to avoid being ill prepared for the process.

Learning outcomes

More specifically the session will include:

- Self analysis
 - Exploring your core values
 - Personal skills audit
- Ideas to help you write or improve your Curriculum Vitae (CV)
- Application forms
- Covering letters
- Being successful at interview
 - Before the interview
 - During the interview
 - After the interview
- Second interviews
- Additional recruitment assessment strategies
 - Assessment Centres
 - In tray exercises
 - Presentations
 - Psychometric testing
- Hints and tips
- Action planning
